NetScaler 10

The world's most advanced cloud network platform.

Features

App & Data Delivery
- L4-7 Content Switching
- SQL Load Balancing
- Global Traffic Management

Performance
- Content Caching
- High-speed Data Compression
- Network Optimization

Visibility
- Performance Monitoring
- Data Analytics
- HDX Insight

Security
- SSL VPN
- App Firewall
- DoS Protection

Broadest Platform Support

NetScaler MPX

High-performance Appliance
500 Mbps to 120 Gbps

**NetScaler SDX™**

Multi-tenant Appliance
Up to 80 Instances

NetScaler VPX

Virtual Appliance
XenServer®, Hyper-V™ and ESX™

NetScaler® helps businesses

- Build enterprise cloud networks that ensure the best performance and availability for all applications
- Scale performance and capacity with revolutionary Citrix TriScale™ technology
- Empower control and confidence with full application security
- Achieve infinite flexibility with built-in cloud connectivity
- Grow with the industry's most versatile and extensible platform
- Obtain unprecedented visibility for XenApp and XenDesktop environments

Citrix TriScale Technology

Pay-As-You-Grow
Increase performance up to 10x

Scale Up

Scale In

NetScaler SDX
Up to 80:1 consolidation

Clustering
Expand capacity up to 32x

Scale Out

PRODUCT PRICE				
Product	Standard Edition($US)	Enterprise Edition($US)	Platinum Edition($US)	Performance (Gbps)
MPX 5550	14,000	24,000	34,000	0.5
MPX 5650	18,000	28,000	38,000	5
MPX 8005	25,000	35,000	45,000	5
MPX 8015	48,000	58,000	68,000	15
MPX 11515	55,000	65,000	75,000	15
MPX 11520	60,000	70,000	85,000	20
MPX 11530	70,000	80,000	95,000	30
MPX 11540	80,000	90,000	105,000	40
MPX 11542	95,000	105,000	115,000	42
MPX 17550	145,000	165,000	185,000	20
MPX 19550	195,000	225,000	245,000	30
MPX 20550	240,000	280,000	305,000	40
MPX 21550	280,000	330,000	360,000	50
MPX 22040	240,000	260,000	290,000	40
MPX 22060	305,000	325,000	355,000	60
MPX 22080	370,000	390,000	420,000	80

SDX 22040	335,000	335,000	335,000	40
SDX 22060	410,000	410,000	410,000	60
SDX 22080	485,000	485,000	485,000	80
SDX 22100	550,000	550,000	550,000	100
SDX 22120	630,000	630,000	630,000	120
VPX-10	2,000	5,000	8,000	0.01
VPX-200	5,000	10,000	15,000	0.2
VPX1000	15,000	22,500	30,000	1
VPX3000	21,000	28,000	36,000	3

Each of the above models are available with TriScale Clustering up to 32 nodes in one system image. Cluster license upgrade pricing per node:

- Standard Edition: Add 18 percent of base appliance price
- Enterprise Edition: Add 18 percent of base appliance price
- Platinum Edition and SDX: Add 10 percent of base appliance price

- Above pricing is per NetScaler appliance
- Maintenance available for MPX and SDX
- Subscription Advantage available for VPX

Flexible Feature Support

Standard Edition

Delivers 100 percent application availability with comprehensive L4-7 load balancing, NetScaler Gateway™ SSL VPN capabilities and in-depth visibility and reporting features.

Enterprise Edition

A powerful application delivery solution providing all Standard Edition capabilities, plus: global load balancing, dynamic routing support, centralized policy management and HTTP compression.

Platinum Edition

The industry's most advanced application delivery solution providing all Enterprise Edition features, plus: static and dynamic content caching, web app firewall security and more.

Industry Leadership

- Industry Leader, Gartner Magic Quadrant
  — Application Delivery Controllers (ADCs)
- Industry Leader, Gartner Magic Quadrant (SSL VPNs)
- #1 in ADC Customer Satisfaction (Enterprise Management Associates)
- IT Brand Pulse Leader: ADCs
  — Ethernet Technology Summit 2013
- Best of Web Application Firewalls 2013
  — Information Security Readers Choice
- Best of Show — Microsoft TechEd 2012

Meeting Customer Requirements

- Need high-performance load balancing and application delivery for better app availability and performance? (NetScaler ADC)
- Adding infrastructure to support new application rollouts or meet growth of existing apps? (NetScaler ADC)
- Need to scale appliance performance up to 5x with no new hardware? (Pay-As-You-Grow)
- Need to ensure security and availability for XenDesktop® and/or XenApp® with the right front-end infrastructure? (NetScaler ADC)
- Improve scale and availability of SQL databases with a SQL -intelligent load balancer? (DataStream)
- Reduce appliance sprawl by consolidating multiple appliances into a single multi-tenant platform? (NetScaler SDX)
- Scale datacenter infrastructure by clustering ADCs for up to 32x greater capacity? (TriScale clustering)
- Need to eliminate idle appliances in a HA pair? (TriScale Clustering)
- Block 100% app-layer attacks? (NetScaler App Firewall™)
- Need the flexibility of a software-based ADC, but fully featured with up to 3 Gbps performance? (NetScaler VPX)
- Make the cloud a secure, transparent extension of your enterprise network? (CloudBridge Connectors)
- Business continuity to ensure user productivity and app availability during outages? (Global load balancing)
- Need app/service-level operational visibility to monitor and manage service levels? (NetScaler Insight Center)
